

Locally Manufactured Fluid Handling Systems

Made In KSA

Rasana by Sherbiny is a regional leader in delivering turn-key integrated industrial systems such as chemical dosing skids as well as steam & water analysis systems.

We offer complete design, fabrication, and installation of our locally manufactured & assembled systems from conceptual design to operational readiness.

All of our solutions combine industry leading equipment and a full range of technical services and aftermarket support.

Robust & Reliable Industrial Systems

- Complete Turn-Key Solutions
- Modular Standardized Skid Packages
- High-Quality & Quick Development
- Reduced Cost
- Excellent Technical Services & Support
- Premium Reliable Equipment

Main Areas of Expertise

- Chemical Dosing Skids
- Steam & Water Analysis Systems
- Fluid Transfer Skids
- Filtering & Separation Skids
- Pump Stations
- Heat Exchanger & Filter Skids
- Metering & Manifold Skids
- Feasibility Studies, Cost Estimation
- Engineering Design & Management

Engineering Services

- Design Analysis
- Customized Explosion-Proof Design
- Front-End-Engineering Design (FEED)
- Detailed 3D Design & Project Execution
- As-Built Reconciliation
- FAT and SAT Support
- Commissioning and Handover
- Material Selection Services

Local Manufacturing & Assembly

- Building a Stronger Future Together
- Highest International Standards
- Installation & Commissioning
- Premium Equipment & Spares
- Local Services (Khobar & Yanbu)
- Aftermarket Services & Support

Sherbiny is ISO 9001, 14001, & 45001 Certified.
